

# Time To Gear Up

## Planes

- Medium Length Bench Plane – #5 Jack or Low Angle Jack
- Low Angle Block Plane
- Large or Medium Shoulder Plane or Rabbet Block Plane
- Smoother
- Jointer - No 7 or 8 (For Flattening the top – Can be done with a LAJ)

## Saws

- Carcass Saw or Larger – Rip & Cross Cut or Hybrid Filed
- Flush Cut

## Miscellaneous Tools

- 1/2" Chisel
- 1" Chisel
- Chisel Mallet
- \*\*12" Combination Square
- \*\*6" Combination Square
- Marking Knife
- Card Scraper
- Brace or Corded Drill
- Drill Bits(for drilling Drawbores and screw pilot holes)
- Long 9/16" Drill Bit (I highly recommend WoodOwl TriCut Ultra Smooth Augers)
- Rasps
- Center Punches
- 24" Parallel Jaw Clamps (x2)
- Hand Screw with Notches
- Mill Bastard File
- Allen Keys (Imperial)
- Screw Drivers
- Hack Saw
- Bevel Gauge
- Plane Adjusting Hammer
- Small Tripod and SmartPhone Mount
- Dependable Internet Access

\*\* If you're buying one for class don't be tempted to skimp on quality. I highly recommend starting with a Starrett - Hardened Steel Stock and a 12" satin chrome finish blade with 4R graduations.
